

Dear families,

Online learning - here we go! Room 9 are already very familiar with using online platforms for our learning so will continue using Microsoft OneNote and Microsoft Teams. Students are able to log on to these platforms via the Reidy Park Primary School intranet. Please contact me if there are any issues with logging on. I will post a daily message on Teams for the students and students are able to communicate with me via this platform. The below learning tasks (excluding Essential Assessment and specialists lessons) will be available on our OneNote. I will be available on Microsoft Teams throughout the school day to support students. Please be mindful that this will largely be in a one-to-one capacity so my response may not be immediate.

If you have any questions, please do not hesitate to email me at Kate.Symons454@schools.sa.edu.au.

Thank you for your support while we navigate this together.

Kate
